1	+0.2	0.09	1.2	99	101
2	-2.4	0.29	2.5	111	109
3	-0.5	0.11	1.5	103	103
4	-2.8	0.31	2.8	113	111

NBA = number born alive, 21 day LWT = 21 day litter weight, SPI = Sow Productivity Index,
TSI = Terminal Sire Index

SCENARIO: Rank these gilts to be used in an Indiana swine operation that focuses on raising competitive showpigs and seedstock. The majority of the offspring are merchandised through state and national breeding shows as well as off the farm sales direct to 4-H and FFA exhibitors. The elite end of the barrow prospects are marketed through online sales. In addition to their competitiveness in the show ring, the operation wants to maintain their emphasis on females with maternal performance.

Official Placing: **1-4-3-2** Cuts: **6-1-1**
