The National FFA Organization National Event Winners - Agricultural Technology and Mechanical Systems 2021

INDIANAPOLIS- Winners of the National FFA Agricultural Technology and Mechanical Systems Career Development Event (CDE) were announced Friday at the annual awards banquet. The event was held in conjunction with the 94th National FFA Convention & Expo in Indianapolis. Dr. Mark Zidon from the University of Wisconsin -Platteville served as superintendent of the event.

The top ten individuals and the national winning team members received cash awards to recognize their success in the event. This CDE, and all the cash awards, are sponsored by Association of Equipment Manufacturers, Caterpillar Inc., Darling Ingredients, Firestone Agricultural Solutions and U.S. Poultry & Egg Association.

The National FFA Agricultural Technology and Mechanical Systems CDE is a competitive event that allows students to apply classroom knowledge to real-life situations. Activities included in the event are a written exam, a team event, demonstration of problem-solving skills, and hands-on performance activities. Areas of emphasis include environmental and natural resource systems, machinery and equipment systems, structural systems, energy systems and electrical systems. Each team in the event has competed with other chapters in their state for the privilege of participating in the national event.

The event, held at the Indiana State Fairgrounds in Indianapolis, is one of many educational activities at the National FFA Convention & Expo in which FFA members practice the lessons taught in agricultural education classes.
