8	.79	7.6	163	105	101

SPI- Sow Productivity Index

TSI-Terminal Sire Index

*Underline and vulvas are considered sound.

Scenario: Select four gilts to be used in an Indiana commercially focused pig operation. These gilts will be housed in sow lots. The firm wants to continue to produce sows that exhibit femininity and functionality. Top offspring will be marketed as show pigs while the remaining will be marketed on a lean yield grade basis.
