The National FFA Organization National Event Winners - Agricultural Technology and Mechanical Systems 2024

INDIANAPOLIS- Winners of the National FFA Agricultural Technology and Mechanical Systems CDE were announced Friday during the fifth session of the 97th National FFA Convention & Expo in Indianapolis. Dr. Preston Byrd served as superintendent of the event.

The top ten individuals and the national winning team members received cash awards to recognize their success in the event.

The National FFA Agricultural Technology and Mechanical Systems CDE is a competitive event that allows students to apply classroom knowledge to real-life situations. Activities included in the event are a written exam, a team event, demonstration of problem-solving skills, and hands-on performance activities. Areas of emphasis include environmental and natural resource systems, machinery and equipment systems, structural systems, energy systems and electrical systems. Each team in the event has competed with other chapters in their state for the privilege of participating in the national event.

The event, held at the Indiana State Fairgrounds, is one of many educational activities at the National FFA Convention & Expo in which FFA members practice the lessons taught in agricultural education classes.
