The National FFA Organization National Event Winners - Environmental and Natural Resources 2024

INDIANAPOLIS- Winners of the National FFA Environmental and Natural Resources Career Development Event (CDE) were announced Friday during the fifth session of the 97th National FFA Convention & Expo in Indianapolis. The event was held in conjunction with the 97th National FFA Convention & Expo in Indianapolis. Ms. Beth Harper of Florida served as the superintendent of the event.

The top ten individuals and the national winning team members received cash awards to recognize their success in the event.

The National FFA Environmental and Natural Resources CDE is a competitive event that allows students to apply classroom knowledge to real-life situations. This event focuses on testing students' problem solving and decision-making skills in environmental and natural resources. These areas concentrate on soil profiles, water quality, waste management, and the use of global positioning units. Each team competed at local and state levels for the privilege of representing their home state at the National FFA Convention & Expo.

The event, held at the Indiana State Fairgrounds in Indianapolis and Dull's Tree Farm in Thorntown, Indiana, is one of many educational activities at the national convention in which FFA members practice the lessons learned in agricultural education classes.
