The National FFA Organization National Event Winners - Agronomy 2025

INDIANAPOLIS- Winners of the National FFA Agronomy Career Development Event (CDE) were announced on Thursday during the second session of the 98th National FFA Convention & Expo in Indianapolis. Mr. Jamie Bultemeier Certified Crop Advisor with A&L Great Lakes Laboratories of Indiana served as superintendent of the event.

The top ten individuals and the national winning team members received cash awards to recognize their success in the event.

The National FFA Agronomy CDE is a competitive event challenging students to apply knowledge to real-life situations. Agronomy teams develop an oral presentation and a written plan that addresses a scenario of an agronomy situation. Individual sections test knowledge in evaluating crop quality and identify various weeds, crop plants, seeds and soils, insects, plant diseases, and nutrient deficiencies/disorders. Participants' understanding of agronomic sciences was tested through several levels of competition in the four critical areas of pest management, nutrient management, crop management and soil and water quality. Students passing the exam will qualify as apprentice Certified Crop Advisors (CCA) and have seven years to complete their certification through the American Society of Agronomy.

The event, held at the Indiana State Fairgrounds in Indianapolis is one of many educational activities at the National FFA Convention & Expo in which FFA members practice the lessons taught in agricultural education classes.
