The National FFA Organization National Event Winners - Environmental and Natural Resources 2025

INDIANAPOLIS—The Winners of the National FFA Environmental and Natural Resources Career Development Event (CDE) were announced Friday during the fifth session of the 97th National FFA Convention & Expo in Indianapolis. Ms. Beth Harper of Florida served as the event's superintendent.

The top ten individuals and the national winning team members received cash awards to recognize their success in the event.

The environmental and natural resources event prepares students for careers in the environmental and natural resources industry. This event fosters student interest, promotes environmental and natural resource instruction in agricultural education, and recognizes skills and competencies gained through such instruction. Participants engage in various activities and practicums, working under challenging conditions to demonstrate their knowledge and skills in environmental and natural resources management. This includes soils, water, ecosystems, waste management, navigational mapping, and environmental monitoring skills through GPS. Each team competed at local and state levels for the privilege of representing their home state at the National FFA Convention & Expo.

The event, held at the Indiana State Fairgrounds in Indianapolis and Dull's Tree Farm in Thorntown, Indiana, is one of many educational activities at the national convention in which FFA members practice the lessons learned in agricultural education classes.
