The National FFA Organization National Event Winners - Food Science and Technology 2025

INDIANAPOLIS- Winners of the National FFA Food Science and Technology Career Development Event (CDE) were announced Thursday during the second session of the 98th National FFA Convention & Expo in Indianapolis. Mr. Ray Pieniazek of Texas served as superintendent of this year's event.

The top ten individuals and the national winning team members received cash awards to recognize their success in the event.

The food science and technology event focuses on developing skills needed in the food science and technology industry through various individual and team activities. Participants are tasked with creating products based on scenarios provided, such as developing side dishes or snacks for specific markets. Additionally, teams perform a food safety audit by evaluating given situations and identifying issues, corrective actions, and related policies. This event helps students gain hands-on experience and knowledge in food science, safety and product development.

This event, held at the Indiana State Fairgrounds in Indianapolis, is one of many educational activities at the National FFA Convention & Expo in which FFA members apply classroom knowledge to real-life situations.
