Advocacy Chat with Dr. Tim Fredricks – Bayer

Directions:

Watch the video “Advocacy Chat with Dr. Tim Fredricks — Bayer,” found at <https://vimeo.com/535631786/45d24244cc>, and complete the following activities.

Why should we care about pollinators?

How do pollinators impact you every day?

Where can we place environments that are pollinator friendly? Give an example.

Using the following resource from Bayer Crop Science, [https://www.cropscience.bayer.com/people-planet/biodiversity/pollinators](https://www.cropsscience.bayer.com/people-planet/biodiversity/pollinators), identify four food products that you enjoy regularly that depend on pollinators.

(1) _____ (3) _____

(2) _____ (4) _____

Three tips to create a pollinator space in any size area are:

- (1) U_____ your space.
- (2) Choose plants that b_____ across different time periods.
- (3) Find an area you don't use r_____.

What are the three basic needs of bees?

Using the space provided, draw a small pollinator garden that would be beneficial for pollinators, especially monarch butterflies. Be sure to include the names of a minimum of three specific plants you would use. Tip: One monarch beneficial plant was mentioned in the video.

Brainstorm three places you could place a pollinator garden in your community.

 Why would this spot work?

 Why would this spot work?

 Why would this spot work?

In one sentence, summarize what you have learned through this advocacy chat.
