SC = Scrotal Circumference

HP = Heifer Pregnancy

\$M = Dollar Maternal

\$B = Dollar Beef

\$C = Dollar Combined

Rank these bulls to be mated to mature cows in a progressive commercial Angus operation in the Midwest. This program emphasizes strong maternal traits and has built a reputation of providing fertile, highly functional females. The top 20% of the female progeny will be retained by this operation. The balance of the females are marketed private treaty as replacement females to a loyal customer base.
