# Appendix 9: Vocabulary Activity

## Part 1

### Directions:

The Frayer model is a graphic organizer used to build vocabulary. There are four parts: definition in your own words, facts or characteristics, examples and nonexamples. Using the word bank below, choose two vocabulary words and complete the worksheet for those two words. When completed, share with a partner.

|                            |                                 |                                         |                                                 |                    |
