

DOSE & DONE

Goat deworming made simple

THE RIGHT DEWORMER

SAFE-GUARD® (fenbendazole) oral suspension comes in a convenient 125 mL bottle, labeled just for goats. Use the dewormer that controls the major goat parasites.

SAFE-GUARD HAS IT ALL:

The Industry's most trusted parasite defense specifically approved for goats.

PRIMARY PARASITES OF CONCERN

- *Teladorsagia circumcincta* (Brown stomach worm)
- *Haemonchus contortus* (barber pole worm)

THE RIGHT DRENCH GUN

Take care of business with a 20 mL SAFE-GUARD Drench gun. It's FREE with your purchase of:

- Six (6) 125 mL bottles of SAFE-GUARD or
- One (1) liter bottle* of SAFE-GUARD

Visit [Safe-Guard.com](https://www.safe-guard.com) to take advantage of this rebate.

safe-guard®
(fenbendazole)

Consult your veterinarian for assistance in the diagnosis, treatment and control of parasitism.

SAFE-GUARD® RESIDUE WARNINGS: Goats must not be slaughtered for food within 6 days following treatment. Because a withdrawal time in milk has not been established, do not use in lactating goats.
