

ENVIRONMENTAL AND NATURAL RESOURCES

Purpose:

The purpose of the National FFA Environmental and Natural Resources Career Development Event (CDE) is to foster student interest, promote environmental and natural resources instruction in agricultural education curriculum and provide recognition for those who have demonstrated skills and competencies as a result of the environmental and natural resources instruction.

Description:

Participants of the environmental and natural resources CDE will work cooperatively to respond to a scenario involving soils, water, ecosystems, and waste management; present a written and oral solution to a panel of judges; answer questions regarding their findings; complete a written exam; identify equipment, native species, and invasive species; complete a water quality analysis; judge a soil profile and determine appropriate use of land; utilize a GPS correctly to complete various activities; and respond to a waste material scenario to find plausible solutions.

Career Opportunities:

- Environmental scientist and specialist
- Geologist
- Ecologist
- Climate change analyst
- Water treatment technician
- Wind substation technician
