Go to www.EnvironmentalScience.Bayer.US for complete product information. Products may not be labeled in all U.S. states – check local registrations.

All rates, diseases and intervals should be verified on the approved state label associated with product packaging. Not all products, rates and diseases are approved in all states. Please consult labels prior to applying. *SG = Stressgard

*See label, 2(ee) supplemental or Bayer Solutions Guide for additional application or tank-mix instructions. †Signature XTRA can suppress the development of algae when used in a tank-mixed with contact fungicides. ‡For control of summer decline caused by a complex of Pythium and Rhizoctonia diseases, Signature XTRA can be tank-mixed with certain fungicides (see the label). ‡Do not exceed 1 fl. oz. per application or a total of 3 fl. oz./1,000 sq. ft. per year in NY. Additional spot treatments can be made for fairy ring. ‡Bayleton has a max rate of 1.4 fl. oz./1,000 sq. ft. per application on Lawn and Landscape. ‡See label for Ornamental use patterns.

⁴Rate info for most products shown for Golf use, check label for specific Lawn, Landscape and Ornamental instructions for use.
