

MILK QUALITY AND PRODUCTS

Purpose:

The purpose of the National FFA Milk Quality and Products Career Development Event (CDE) is to promote practical learning activities in milk quality and products as well as assist students in developing team decision-making skills.

Description:

Participants of the milk quality and products CDE will work cooperatively to determine milk acceptability; present their findings, solution, and recommendations; identify cheese types, milk flavors, and artificial dairy products; complete a written and problem-solving exam; and perform a California Mastitis test.

Career Opportunities:

- Milking machine operator
- Cheese maker
- Milk plant supervisor
- Quality control supervisor
- Microbiologist
- Food and drug inspector
- USDA inspector
