

Purina® StressTub

Specie: Beef

Type of Feed: Supplement

Form of Feed: Tub

General Description: The Stress Tub is a free-choice supplement designed for young cattle prior to or after stress and breeding animals. This product is recommended for use in pre-weaning situations, receiving and hospital pens, as well as to the breeding herd 60 days prior to calving and through the breeding season.

PURINA® PURINA® STRESS TUB

SUPPLEMENT FOR CATTLE ON PASTURE AND FEEDLOT CATTLE

CAUTION: FEED AS DIRECTED

GUARANTEED ANALYSIS

Crude Protein, (Min)	12.00%
Crude Fat, (Min)	4.00%
Crude Fiber, (Max)	4.00%
Calcium (Ca), (Min)	2.00%
Calcium (Ca), (Max)	2.50%
Phosphorus (P), (Min)	1.00%
Salt (NaCl), (Min)	2.00%
Salt (NaCl), (Max)	2.50%
Magnesium (Mg), (Min)	1.00%
Potassium (K), (Min)	2.00%
Copper (Cu), ppm, (Min)	785
Cobalt (Co), ppm, (Min)	60
Manganese (Mn), ppm, (Min)	1300
Selenium (Se), ppm, (Min)	13
Zinc (Zn), ppm (Min)	2500
Iodine (I), ppm, (Min)	40
Vitamin A, I.U./lb, (Min)	200,000
Vitamin D3 I.U./lb, (Min)	22,500
Vitamin E, I.U./lb, (Min)	800

INGREDIENTS

Note: ingredients differ by manufacturing plant

Molasses Products, Processed Grain By-Products, Plant Protein Products, Soybean Oil, Calcium Carbonate, Dicalcium Phosphate, Monocalcium Phosphate, Magnesium Oxide, Salt, Sodium Hydroxide, Vitamin E Supplement, Sodium Selenite, Vitamin A Supplement, Zinc Sulfate, Ethylenediamine Dihydroiodide, Zinc Amino Acid Complex, Vitamin D3 Supplement, Manganese Amino Acid Complex, Copper Amino Acid Complex, Basic Copper Chloride, Cobalt Glucoheptonate, Cobalt Carbonate, Manganese Sulfate.

FEEDING DIRECTIONS FOR RECEIVING, STARTING AND SHOW CATTLE SUPPLEMENT:

CREEP FEED SUPPLEMENT: Offer this tub to calves in a creep area, 1 to 2 months prior to weaning.

RECEIVING AND STARTING SUPPLEMENT: Offer this tub to newly received calves or starting cattle, either in confinement or on pasture. Tubs should be offered through the first 3 to 4 weeks to newly received calves. These tubs are also an excellent supplement to include in feed yard hospital or sick pens to help stimulate feed intake and provide important nutrition to help cattle overcome disease. Calves will receive 7 grams of Availa® and 1/2 ounce of Diamond V® Original XPC™ per 1/2 pound of product consumed.

BREEDING CATTLE: Offer this tub to cows, replacement heifers, developing bulls and breeding bulls from 60 days prior to calving, through the end of the breeding season.

MANAGEMENT TOOL NOTE: Placement of tubs can influence grazing distribution in large pasture situations. Place tubs in areas of under-utilization in order to entice animals to specific locations within a pasture.

INTRODUCTORY PERIOD: During the first week of use, place the tubs within 100 feet of the loafing and/or watering areas. As animals become accustomed to the presence of the tubs, some repositioning may be necessary. Move the tubs closer to increase consumption, further away to decrease consumption.

DO NOT PROVIDE STARVED ANIMALS FREE ACCESS TO THIS SUPPLEMENT. Consumption rate depends on location of the tubs with respect to loafing, grazing, feeding and/or watering areas. Also consider animal condition, forage quality and quantity and seasonal weather conditions. If over-consumption occurs for more than two weeks despite tub repositioning, remove tubs and evaluate the overall feeding program.

CAUTION:

DO NOT FEED TO SHEEP DUE TO HIGH LEVELS OF SUPPLEMENTAL COPPER. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death. This product was made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feed. Availa® is a registered trademark of Zinpro Corporation. Diamond V® is a registered trademark of Diamond V Mills, Inc.

Available Options:

Product No.	Package	Size	Feeding Rate
0052170	Cooked Tub	125# Plastic	See feeding directions
0048950	Cooked Tub	225# Plastic	
1820996-622	Cooked Tub	250# Fiber	

Product Features:	Product Benefits:
Low moisture cooked molasses product technology	Consistent intake and nutrient delivery that helps eliminate over-consumption Moisture from air and saliva from licking softens a thin layer on the surface of the tub while lower levels remain protected and solid Intake is regulated by availability of the softened layer
Supplement delivery method that fits a variety of production systems	Convenient supplement delivery system is ideal for small beef producers with other time commitments, as well as large producers who experience time and labor shortages
Natural protein (from vegetable sources only) Availa® Diamond V®	Supplies modest amounts of protein to optimize animal performance at an economical cost Specifically designed to improve overall health and performance of newly received stressed cattle; Also formulated to provide elevated levels of vitamins, specifically Vitamins A and E. In cows, improves reproductive efficiency through improved fertility; improves lifetime performance through the positive impact on fetal development; improves overall performance through improved immunity, hoof health and disease prevention. Meets 100% of trace minerals requirements using Zinpro's Availa® complexed trace minerals at a 0.5 lb consumption Better palatability helps maintain consistent feed intake Better feed digestibility helps make more nutrients available to the animal for absorption, performance, health and reproduction
Non-returnable plastic container and non-returnable fiber contain also available	Labor-saving supplement delivery system that reduces the biosecurity risks associated with returnable containers

USAGE TIPS:

This tub is a highly palatable molasses based supplement that entices cattle to taste. It provides the key nutrients needed for a fully functioning immune system so that cattle are fully prepared to face and/or recover from the stresses of weaning and transportation, respond to vaccination programs, start more quickly on feed or return to their home pen more quickly. It also provides key nutrients involved in reproductive performance to positively impact fertility, estrus, as well as semen quality and quantity.

IMPORTANT:

1. Feed one tub per 20 head and at least 2 tubs per pen or pasture to ensure adequate intake by younger, more timid animals.
2. Place tubs within 100 feet of where animals congregate (loafing, grazing, feeding and watering areas).
3. Feed tubs continuously along with adequate amounts of good quality forage and fresh, clean water.
4. Cattle will consume approximately 0.33 to 0.5 pounds of this supplement per head daily.
5. Cows will receive 7 grams of Availa® and 1/2 ounce of Diamond V® Original XPC™ per 1/2 pound of tub consumed.
