

2019 National FFA Floriculture CDE

Team Activity

Your team members are all employees of your school's floral & greenhouse shop. The Counselor in your school is getting married over spring break and she would like your class to design her wedding flowers. She has scheduled a wedding consultation with the 4 of you to get an idea of what you will make for her special day. Your team needs to prepare several items to be ready to meet with the bride.

The bride has given you the following information that will aid you in meeting her needs:

- The bride has shared that she will be ordering the following items and has asked for 1 sample of each for the consultation.
- The bride's name is Sarah Smith and the wedding will be held on April 3, 2020.
- She has a budget of \$750 total for wedding flowers
- She will need
 - 1 Brides Bouquet, she would like a white hydrangea bridal bouquet
 - 3 Brides Maids Bouquets, she would like a bouquet of Baby's Breathe for her Bride's Maids
 - 5 Boutonnieres, She would also like Baby's Breathe used in the Boutonnieres
 - 10 Centerpieces for the Reception, her idea for the reception centerpieces are to be made of hydrangeas, baby breath and greenery of your choice
- She has given you some creative freedom to make her requests unique and trendy.

Assignments for your team

- ✓ **Complete the given Wedding Proposal Form**
 - ✓ **Complete the given Work Sheet**
 - ✓ **1 Sample Bridal Bouquet**
 - ✓ **1 Sample Bride's Maid Bouquet**
 - ✓ **1 Sample Boutonniere**
 - ✓ **1 Sample Centerpiece**

Your team will have 45 mins to complete all the items assigned to your team.

You will then be given 5 minutes to present your consultation ideas to your judges.
