

The goal for the team activity, is to identify the medical findings and recommendations from both Hank and Ricky's veterinary evaluation and present to the judge as if they are the animal owner.

1. Share the top three medical findings from Hank's exam and their clinical relevance.
2. Share with Ms. Glenn at least three veterinary recommendations for the at-home wound and bandage care of Hank's leg.
3. Share the top three medical findings from Ricky's exam and their clinical relevance.
4. Share with Ms. Carroll at least three veterinary recommendations for the at-home management of Ricky's multiple diagnoses.

**** You can use the notes you captured from both rotations****
