

NAME: _____

College and Career Readiness Q&A with Bayer and Express Employment Professionals

DIRECTIONS:

Watch the video "College and Career Readiness Q&A with Bayer and Express," <https://vimeo.com/451570022/3bf9d6acce>, and complete the following activities.

1. As a middle or high school student looking to the future, what should you focus on for the next chapter after high school?

2. What advice from the professionals about possible career options resonates with you? Why?

3. If students must spend summers working versus getting industry experience (internships), how can they represent that on their resumes so they are on the same playing field as their classmates?

4. How do you think social media posts can affect students in the future when applying to post-secondary schools and for jobs?

5. Reflect on what you learned after answering the questions and watching the video. How will you apply it in your life?

Check it out! Use what you learned from the video to update your resume using the FFA Resume Generator. Haven't started your resume? Go to the [FFA Resume Generator](#) to get started today!

KEY: College and Career Readiness Q&A with Bayer and Express Employment Professionals

DIRECTIONS:

Watch the video "College and Career Readiness Q&A with Bayer and Express," <https://vimeo.com/451570022/3bf9d6acce>, and complete the following activities.

1. As a middle or high school student looking to the future, what should you focus on for the next chapter after high school?

-Keep integrity intact (be honest and straight forward).
-Have a good work ethic.
-Be professional (professional dress); the first five seconds are the most important to make a good impression.
-Be open-minded.
-Make connections/network.

2. What advice from the professionals about possible career options resonates with you? Why?

Find something you enjoy, look for a company that has a major purpose, seize every opportunity you have, be open-minded, don't be afraid to fail

3. If students must spend summers working versus getting industry experience (internships), how can they represent that on their resumes so they are on the same playing field as their classmates?

Find aspects of the position that could relate to the experience or give you experience that you are looking for. Community service or leadership experience at school can also be utilized on the resume as aspects of those positions/events require responsibility and tasks to be completed.

4. How do you think social media posts can affect students in the future when applying to post-secondary schools and for jobs?

Answers may vary, but can include information provided on the video:

What is spoken through technology often comes back to haunt you; always be careful of what you say and do on social media. Think before you post; step back and think, remember there are two sides to every story, be mindful that others may not agree with you, try to be positive.

5. Reflect on what you learned after answering the questions and watching the video. How will you apply it in your life?

Answers may vary.
