

**2013 Veterinary Science CDE
Team Activity Scenario**

Your clinic schedules office visits for feline wellness examination and education. Today Buddy brought Jack, a 5-year old domestic shorthair, neutered male cat, to your clinic for a wellness visit. Recommendations for diagnostics and preventive care for Jack will be presented. The team will demonstrate the roles of each member and describe the importance of routine wellness visits to the client.

Teams will conduct research using local veterinarians and veterinary resources based on the annual topic. In a 15 minute presentation, teams will demonstrate the different roles of the veterinary team, as well as explain steps and procedures for the veterinary process to the judges. The potential roles to be addressed in the team activity are listed below. Teams need to determine what roles are most important to demonstrate based on the annual topic. Veterinary team roles may include, but are not limited to:

- Veterinary technician
- Veterinarian
- Veterinary assistant
- Receptionist
- Farm manager
- Owner/client
- Kennel/stable assistant

The presentation can be creative in nature and teams may include props, but must be able to set up in 5 minutes and tear down in 3 minutes. PowerPoint presentations will not be utilized in the team activity. See team activity rubric at the end of this handbook.
