Crop Placing Written Reasons Scorecard

3 5 4 cut

Class:
Name:

HAY

Participant Number:

State:

Placing	
3	I placed 3 over 4 because: 3 had <u>finer</u> stems 3 showed a <u>large amount of leaves</u> 4 had evidence of a <u>grass mix</u>
4	Granted 4 showed an equal amount of leafiness. I placed 4 over 2 because: 4 exhibited more <u>leaves</u> and <u>freshness</u> than 2
2	4 had a <u>brighter color</u> than 2 4 had <u>finer stems</u> than sample 2
1	I placed 2 over 1 because sample 1 exhibited a large amount of <u>seed pods</u> showing the <u>maturity</u> of the sample. alfalfa

Placing
cut

Placing	1	2	3	4	
1	I placed 1 over 2 because: sample 1 was a more desirable color, larger specimens and more uniform in size & shape				
2	I placed 2 over 3 because more desirable appearance less damage to rust, scab and disease				
3	Granted 3 more uniform I placed 3 over 4 because: 3 is more desirable size, shape and more uniform than #4				
4	#4 is an obvious bottom of the class due to lack of size, discoloration, disease and mechanical damage
