

Malt Barley Production Contract

DATE _____

STATE _____

COMPANY

- 1) Will provide seed variety Morovian 37 in the amount of 77000 pounds to contract 640 acres for 2 row malt barley production. This seed is provided free of charge so long as the crop is produced according to the contract. If the contract is voided or not accepted the producer will be charged in the amount of \$3850 for the seed.
- 2) Will be responsible for reviewing all production records relating to the required fertility program, pest management program and marketing. SEE APPENDIX A.
- 3) Will provide transportation for 65000 bushels of produced malt barley to our facility at no cost to the producer. Payment will be \$7.35 per bushel.

PRODUCER

- 1) Will seed the variety at a rate of 120 pounds per acre.
- 2) Will provide 60% of the nitrogen needs at planting along with other requirements listed in the provided soil test report.
- 3) Will top dress the remaining 40% of the nitrogen requirements prior to tillering.
- 4) In crop herbicide application will include a fungicide and insecticide will be applied prior to the 5-leaf stage.
- 5) Fungicide and insecticide will be applied at the flag leaf stage to maximize quality. And applied by aircraft to protect the crop.
- 6) Fungicide will be applied at early flower for protection against fusarium head scab. We recommend Prosaro.
- 7) The crop will be harvested by custom company with combines set up for malt barley. The producer is responsible for paying for this service.

FOR EVENT USE ONLY

- 8) The Produce is obliged to sell the barley produced in this acreage in the amount of 65000 bushels to this malting company. Any remaining bushels are the producer's responsibility to haul to market.
- 9) The producer agrees to sell any remaining barley produced in these fields to a local elevator to be sold only as feed grain.
- 10) The producer owns the straw to use or market.

Any violation of said contract will result in a request for payment of seed, no provided transportation and all crop production from the contracted acre to be sold at local elevator as feed grain only at the cash grain price.
