TO: Coaches of Teams Participating in 2016 National FFA Food Science and Technology Career Development Event

FROM: Lori Moore, Superintendent

DATE: August 19, 2016

SUBJECT: Additional Items of Interest

By now you should have access to the Team Orientation Information giving you almost all of the information you will need for participation in the event. However, I wanted to provide you with some additional information related to various parts of the event that were not available at the time the Team Orientation Information was prepared.

First, as you know, the type of product that we will be using for the product development portion of the event was not released in the Superintendent Letter. I know many of you have been anxiously awaiting its release. Well, the wait is over. The committee has decided that this year's product development team activity will focus on a product that meets the following criteria:

- o Category: Snack
- o Platform: Ready to Eat
- o Market: Convenience Store

Finally, I want to remind all teams to be sure to declare any food allergies. It is important that team members with true food allergies declare the exact allergy through the special needs process. To do this, please see the information related to Special Needs Accommodation in National FFA Career Development Events. This information can be found at

https://www.ffa.org/MyResourceDocuments/ffa_specialneeds_policyprocedure.pdf

I hope you find this information useful. If you have any questions or concerns, please feel free to contact me. I can be reached at llmoore@tamu.edu or by phone at (979) 845-1295.

Sincerely,

Lori Moore, Food Science CDE Superintendent
